

Statistical Computing 2014

20.07. - 23.07. 2014

46th Meeting of the Working Groups
"Statistical Computing" (GMDS / IBS-DR) and
"Biostatistics" (GfKI)

Schloss Reisenburg, Günzburg

Workshop Objectives

Discussion of the development and use of analysis methods for Statistical Computing and Computational Statistics with special emphasis on applications in the life sciences.

Important Dates

Submission deadline for talks
July 6, 2014

Final Program
July 13, 2014

Registration

For registration please fill in the form at <http://sysbio.uni-ulm.de/ocs/index.php/statcomp/statcomp14>
Workshop fee € 50 (Students € 20)

Conference Location

Schloss Reisenburg is an ideal location for a workshop. There are well-equipped conference rooms, accomodation on-site, and an environment that facilitates productive and enjoyable discussions.

Invited Talks

Genes and Function: Prediction, Regression and systems modelling
Ulrich Mansmann, München

Genomic Biomarkers for Personalised Medicine: Identification and Validation
Axel Benner, Heidelberg

Learning from imprecise and fuzzy data
Eyke Hüllermeier, Marburg

Hands-on Tutorials

Boolean Networks
C. Müssel, L. Lausser (Ulm)

Algorithm Configuration / Tuning with R
B. Bischl, M. Lang (Dortmund),
F. Schmid (Ulm)

Statistical Workflows for Sequencing Data
J. Mazur, A. Gerhold-Ay (Mainz)

Organizers

H. A. Kestler (Universität Ulm)
M. Schmid (Universität München)
H. Binder (Universität Mainz)
B. Bischl (Universität Dortmund)

Instructions for Authors

Abstracts for presentations should be submitted to Hans Kestler by email (hans.kestler@uni-ulm.de). ASCII text, PDF, Word, Pages, or Tex/LaTeX are acceptable. Abstracts should be no longer than two pages.

The workshop language will be English.
